

KP Photo CGI Internship Program

About

Kalman & Pabst Photo Group is a commercial CGI & photography studio located in Cleveland, Ohio. For over 35 years, we've produced award-winning photography & computer-generated imagery for clients such as Arhaus, Marvin, Electrolux, GE Lighting, Smucker's, and more.

As technology continues to advance at an unprecedented pace, the demand for exceptional CGI talent is skyrocketing. The ability to breathe life into digital worlds requires a unique blend of technical skill, artistic creativity, and innovation. Our goal is to provide our CGI interns with real-world experience and foster skills for a career in CGI. This packet outlines the responsibilities and requirements for our CGI internship program.

Role Summary

The primary role of the CGI intern is to support KP's Director of Technology & Innovation and Lead CGI Artist. Under their supervision, CGI interns will be responsible for learning and performing a variety of tasks that directly support our CGI function while gaining hands-on experience in the ever-evolving industry.

Essential Duties

- Scene creation including prop importing, lighting, and texturing
- 1-10 scenes setup, textured, completed
- 10+ renders

Length of Internship

The internship will last the duration of 15 weeks. Hours are flexible with a minimum of eight (8) hours completed per week, and can range up to 40 hours per week. We offer this as a credit-bearing internship where available (depending on your school's allowance/requirements).

Requirements

- Any grade level welcome from accredited photography, visual communications, or similar program
- Interested in Architectural Visualization, Photography, 3D, VFX, Motion
- Basic knowledge of 3DS Max
- Excellent organizational skills and ability to multitask
- Software: 3DS Max and Chaos Corona or V-Ray (Reimbursable)
- Professional demeanor in both appearance and in communication
- Primarily remote with the addition of occasional planned studio time to familiarize with the studio, meet the team, and collaborative working sessions

CGI interns, in their journey to master this art, bring fresh perspectives, boundless enthusiasm, and a hunger to push the boundaries of what's possible. They are the future visionaries and technical wizards who shape the landscapes of entertainment, design, and visual communication. We're excited to have you on board!
